The Youth Association from Transylvania - an NGO from Cristuru Secuiesc, ROMANIA - recognizes the need of the local and regional community to have young people coming from other countries, who can contribute to developing the potential of the area from a cultural, social and economic standpoint. For this reason **since September 2013** we coordinate EVS projects. **Until now 50 EVS** volunteers did successful long term EVS activities with us. Now we are hosting **26 volunteers from Estonia, Hungary, Portugal, Slovenia and Spain** for an approved project.

Activities are planned in the following FLOWS:

ACTIVITIES, IN MORE DETAIL:

1 Recycling and up-cycling education manager - We are looking for a person who wants to learn how to work with children and youth and who wants to learn how to protect the environment by reusing our waste. **Context:** Cristuru Secuiesc and the region has a lack of options to recycle and act sustainable ecologically. To aid this lack, we continuously have volunteers who do activities on recycling and up-cycling with workshops, bazaars and other educational activities for teens and youths. This activity is done to make the children and youth who participate more aware and sensitive to trash, its negative effects and possible reuses. To achieve this, workshops need to be carried out by the volunteers in the EVS house in local schools and in villages, both for children and teenagers. Also, bazaars need to be organized so that the community sees and uses the creations of their youths and of the volunteers. 3-4 workshops should be done weekly and 1 bazaar every 2 months. During the activity the volunteer will collaborate with the primary schools, NGOs and the village schools of the region.
